PROMEGA ART SHOWCASE FEATURES FIRE ARTS

The Promega Art Showcase Fire Arts will feature 18 artists along with their sculptures made from bronze, plaster, wood, ceramics, mixed media and jewelry. Work varies in size from 3 – 5 feet to quite small. The 3-D art will be showcased in the Promega atrium and outside on the new Terrazzo balcony garden.

Fire Arts Studio is home to professional and emerging artists and is fully equipped for artists who use fire in the creation of their work. They are able to work along side each other to learn and share creativity. The studio is located in South Bend, Ind., and works closely with the community by holding lectures, workshops, demonstrations and exhibits.

The Summer Art Showcase opens Tuesday June 12, and continues through Sept. 10 at the Promega BioPharmaceutical Technology Center in Madison. An art opening reception will be held on Tuesday June 12 from 4:30 – 6:30 p.m. and is open to the public.
